A high-achieving Computer Science Education graduate (GPA 3.88/4.00) specializing in technology integration and curriculum development. Proven ability to enhance student learning, demonstrated by developing a Unity-based "Edugame" that increased student engagement by 25%. Skilled in teaching core Informatics concepts, including algorithms and programming, while implementing effective classroom management strategies that reduced disruption by 15%.

SKILL

Teaching Informatics (Algorithms, Programming, Multimedia)
Lesson Planning & Classroom Management
Media Development: Unity, Canva, PowerPoint
Assessment & Learning Evaluation

EXPERIENCE

SMA DIGITAL SCHOOL SHAFAR MARWAH Website Teacher (Full-Stack Instructor)

Bogor, West Java
2025-now

- Teaching a full-stack curriculum centered on the MERN stack (MongoDB, Express.js, React.js, Node.js) and modern web principles.
- Instructing students on foundational technologies including HTML, CSS, JavaScript (ES6+), and version control (Git).

EDUCATIONAL PROFESSIONAL STRENGTHENING PROGRAM Teaching Informatics for 1 semester

Bandung, West Java
2023-2024

- Delivered 20+ teaching class period on algorithms and programming to classes of 30–35 students.
- Developed interactive learning media using Unity game and achieved student engagement score +25% based on survey.
- Implemented classroom management strategies that reduced disruption by 15%.

SUBSTITUTE TEACHER FOR FINAL PROJECT OBSERVATION Teaching Informatics with Serious Game

Bandung, West Java
2025

- Conducted 1-month teaching observation with 36 students, collecting data for final research.
- Evaluated learning outcomes, showing significant improvement in student understanding of branching logic.

PROJECTS

EDUGAME KITCHEN CODE

Developed game-based learning media for programming basics, tested in class experiment.
